

Facilities Sprinklered Status Nursing Homes

Nov-06

Note: Nursing Homes not appearing on this list are fully sprinklered. Newly sprinklered facilities will be removed the month following inspection approval.

Note: Smoke detector installation, signage, and posting requirements for the following facilities is being confirmed upon survey.

***Exempt:** T.C.A. 68-11-235 exempts nursing homes that choose to completely replace the facility as an alternative to sprinklering the existing facility. These facilities have obtained approval from the Health Services and Development Agency and have submitted plans to the Department for such. The replacement facility must be in construction beyond the footing stage within three (3) years of July 1, 2004.

Small project - Denotes facility almost completely sprinklered except for small area not requiring submission of sprinkler plans.
